

A SONG WRITTEN FOR HEATHER

Light of My Days

Anniversary

1:30

4:24

The day we met, dark glasses hid your eyes
I said, "Take them off, let me see"
Your pretty brown eyes changed my whole
blue skies

And trouble found its way to me
No money, then your old car broke down
By grace of God, we turned it all around

*Heather, I'm still here because of you
You prayed beside me through the night
Your love has always been my light
I'm who I am through you*

Soon after, cancer stopped my world in place
Though we were not yet man and wife
You held my hand, with courage on your face
You said, "Together, we'll make it through
this life"

When sickness kept you in your bed
I cared for you as tears came down
We made it through that road ahead
And found our feet on steadier ground

*Heather, I'm still here because of you
You prayed beside me through the night
Your love has always been my light
I'm who I am through you*

On this anniversary, I know
Your tender heart still lights my way
Wherever life may lead, we'll go
I'll hold your hand through every day

*Heather, I'm still here because of you
You prayed beside me through the night
Your love has always been my light
I'm who I am through you*

*Those pretty brown eyes light my way
And I will choose you every day
We have been together for ten years
And I would do it all over again*
