

A SONG WRITTEN FOR JENNY

Timeless Connection

Anniversary

1:02

3:03

For sixteen years, you did my hair
Then suddenly, we clicked right there
From then, we grew so very close
Like two hearts finding their repose
We'd sit and talk, let hours run
Enjoying life, its simple fun

*Jenny, whatever life may do
There'll never be another you
My heart will always stay with you
No one but you, it's true*

Llandudno was our first trip out
We laughed all day without a doubt
Through travel, food, and time to rest
Those simple moments felt the best
Then came a time we were apart
It left a silence in my heart
But what we found could still remain
A closeness stronger than the rain

*Jenny, whatever life may do
There'll never be another you
My heart will always stay with you
No one but you, it's true*

On this anniversary, I see
How much your closeness means to me
Whatever waits along our way
I'll hold you close through every day

*Jenny, whatever life may do
There'll never be another you
My heart will always stay with you
No one but you, it's true*

*Just sitting close, with time to spare
Still finding laughter everywhere*
