

A SONG WRITTEN FOR LOUISE

Enchanted Love in Glasgow

Just because

1:18

3:50

The day we met in Glasgow's light
Great weather made the city shine
Your honest eyes met mine that day
And turned the doubt inside away
We laughed, and all the world was new
A quiet spark was shining through

*Louise, you take my breath away
This deep love lights my every day
I'll never take this love for granted
Our love forever stays enchanted*

At Loch Lomond, they saw us kiss
And took the photos of our bliss
We had no need for words that day
The world could watch us drift away
You faced the fear to love anew
And opened up your heart so true
Each night, we laugh upon the phone
And share the little things we've known

*Louise, you take my breath away
This deep love lights my every day
I'll never take this love for granted
Our love forever stays enchanted*

Driving to Perth, we laughed awhile
That funny advert filled the day
Then rainbows followed mile by mile
May laughter never fade away

*Louise, you take my breath away
This deep love lights my every day
I'll never take this love for granted
Our love forever stays enchanted*

*Tonight, our laughter fills the phone
And leaves no heart to feel alone*
