A SONG WRITTEN FOR JADE

Eternal Dance of Love

Anniversary

That first night dancing, you pulled me near
You swept me off my feet with ease
In your arms, my fear disappeared
I felt so safe, so loved, so free
Feelings I had never known came true
That dance began my life with you

> *Jade, I'm forever grateful too*
> *My love has only grown more strong*
> *I'm more in love where I belong*
> *A million more years with you*

Once, fear had taught me to feel small
Your love became my sheltering wall
We raised our children side by side
With love to be our daily guide
Now, with grandkids gathered near
I see your love so bright and clear
Nothing brings more joy to me
Than all the love they get to see

> *Jade, I'm forever grateful too*
> *My love has only grown more strong*
> *I'm more in love where I belong*
> *A million more years with you*

After eighteen years, I see
More love in every memory
This anniversary, I know
I want more years for us to grow

> *Jade, I'm forever grateful too*
> *My love has only grown more strong*
> *I'm more in love where I belong*
> *A million more years with you*

Come dance with me, pull me near
My favourite place is always here
