

A SONG WRITTEN FOR SANDRA

Soul Sisters Forever

Birthday

1:12

3:32

At barbecues in Stoke by Clare
We danced as laughter filled the room
A glass of wine was always there
Then hugs made space for joy to bloom
In Silver End, Lynn first met you
A friend who's kind and always true

*Sandra, thank you for your love so true
Your support has carried me right through
Happy birthday, year by year
My soul sister, ever near*

No men, we thought we'd make it through
Five children between us, me and you
We danced with children, full of cheer
To Time Warp, year after year
Lynn moved to Australia, far away
And distance turned our skies to grey
But love held fast across the miles
And kept us close in shared old smiles

*Sandra, thank you for your love so true
Your support has carried me right through
Happy birthday, year by year
My soul sister, ever near*

May every birthday find you near
With laughter ringing bright and clear
Whatever roads may come our way
I'll be your friend, come what may

*Sandra, thank you for your love so true
Your support has carried me right through
Happy birthday, year by year
My soul sister, ever near*

*Across the years, our laughter stays
And love still lights our future days*
