

A SONG WRITTEN FOR SHERRI

Renewed Loyalty

Anniversary

1:28

4:20

We climbed the mountains side by side
With every step, our hearts would rise
The Hanalei sunsets opened wide
And left their gold within our eyes
The day we met still feels so near
A quiet start that brought us here

*Sherri, I can't believe your love stays true
After every pain, you stood so tall
Your loyal heart has made our love anew
You carry me through it all*

Separation changed our days
And pulled the two of us apart
Abandonment brought harder ways
And weighed upon your loving heart
But our renewed love found its way
Your loyalty became our light
It warmed the dark and made us stay
And holds us close tonight

*Sherri, I can't believe your love stays true
After every pain, you stood so tall
Your loyal heart has made our love anew
You carry me through it all*

Your beauty still shines through
Through all the pain I've brought
Your giving heart stayed true
When I thought love was lost
Our renewed love found its way
Your faith became my light
I thank God every day
For holding me tonight

On this anniversary, I see
The grace you keep on giving me
I'll hold the love we've found so near
And walk beside you year by year

*Sherri, I can't believe your love stays true
After every pain, you stood so tall
Your loyal heart has made our love anew
You carry me through it all*

*Like Hanalei beneath the sun
Our renewed love keeps shining on*
