

A SONG WRITTEN FOR KERRY

Symphony of Us

Just because

1:13

3:33

At Symphony in the Park, I just knew
That every road would lead me back to you
Your smile lights up the weight of any day
Your little laugh can chase the clouds away
When you are happy, all my heart is bright
No outside noise can steal our easy light

*Kerry, you mean the world to me
I'd do anything to set you free
You work so hard, may worries all grow less
Just time for us with no more stress*

When I can't work, you carry more for me
Your helping hands reach out so generously
Last year was hard, it tested us again
We'll get back on track, away from strain
When stress lets go, your bright smile shows
Your beautiful eyes make grey skies glow
I see your strength, a steady flame
My love for you stays just the same

*Kerry, you mean the world to me
I'd do anything to set you free
You work so hard, may worries all grow less
Just time for us with no more stress*

One day, we'll travel hand in hand
Take photographs across the land
We'll play golf, even if we're bad
And laugh at every shot we've had

*Kerry, you mean the world to me
I'd do anything to set you free
You work so hard, may worries all grow less
Just time for us with no more stress*

*Everything happened for a reason
We were meant to share each season*
