A SONG WRITTEN FOR JULIE

Homeward Bound

Just because

1:31 4:29

I met you at work beneath the lights
Our paths would cross, then vanish out of sight
Then ten years on, we began to date
Two hearts that found each other, though so late
Your hand reached out and mine was there to hold
From then, our quiet story turned to gold

> *Julie, beautiful inside and out*
> *You mean so much, beyond all doubt*
> *You're the center of my world each day*
> *And every road brings me back your way*

When my wife passed, nights turned cold and gray
I carried grief through every quiet day
You loved my two young boys as your own
You gave them a safe place to call their home
Our daughter Alexia lit our days
Her little smile could chase the clouds away
I cared for my father, you your mother
Apart, we held on tight to one another

> *Julie, beautiful inside and out*
> *You mean so much, beyond all doubt*
> *You're the center of my world each day*
> *And every road brings me back your way*

I'll spend my days still grateful by your side
For all the love you've given, deep and wide
No matter where the roads may lead us through
My heart will keep on coming home to you

> *Julie, beautiful inside and out*
> *You mean so much, beyond all doubt*
> *You're the center of my world each day*
> *And every road brings me back your way*

Under the same soft light, I'll hold you near
You are my home, today and every year
