

A SONG WRITTEN FOR SAMSAM

Right in Front of Me

Anniversary

1:05

3:10

You stood by me, you gave our kids all a
father should give
You spent your last pennies on me when I
was down
You saw the best in me when nobody did
You gave me everything I never gave you
We met at college, the world turned bright
With high hills and Snickers chocolate
that night

*Samsam, you're the best thing in my life
This anniversary, my beautiful wife
I chased the world, but all I ever needed
Was right in front of me, and that's you*

You raised our kids while I was far away
Your strength and your mind taught me
so much
Things in this world I couldn't see before
When distance put the miles between
our days
You kept me in your prayers at night
The mother of my kids, so patient and brave
Wherever I am, I pray for you

*Samsam, you're the best thing in my life
This anniversary, my beautiful wife
I chased the world, but all I ever needed
Was right in front of me, and that's you*

I'm sorry for the times I didn't see
How you sacrificed for family
With all my heart, I promise true
I'll choose you more with every day

*Samsam, you're the best thing in my life
This anniversary, my beautiful wife
I chased the world, but all I ever needed
Was right in front of me, and that's you*

Wherever I am, you're in my prayers
And when we're old, with silver in our hair
I'll still look at you and be grateful you're there
