

A SONG WRITTEN FOR DIMKA

Seasons of Our Love

Anniversary

1:35

4:38

New Year's Eve, two thousand twelve shone bright
You came to pick me up that night
We drove toward the yacht party lights
And I felt something warm ignite
Above the Queen Mary, fireworks filled the sky
Love at first night, you and I

*Dimka, through each season, take my hand
We'll make a home from dreams we've planned
Your strength has brought us through together
We keep moving forward together*

Three children came from love we knew
A living dream our hearts made true
Through difficult seasons, side by side
We found the courage deep inside
Best friends and partners, you and I
Your tender strength still lifts me high
Not perfect, still our love is true
Each day, I choose this life with you

*Dimka, through each season, take my hand
We'll make a home from dreams we've planned
Your strength has brought us through together
We keep moving forward together*

When you forget your strength, I'll say
I'll celebrate your growth each day
Through healing, rebuilding, side by side
I'll hold your hand while we decide
We keep on dreaming, you and I
Your mind and heart still lift me high
You drive your race car strong and true
And I keep choosing life with you

On this anniversary, I see
How far your love has carried me
We'll face the unknown hand in hand
And build our future as we planned

*Dimka, through each season, take my hand
We'll make a home from dreams we've planned
Your strength has brought us through together
We keep moving forward together*

*The fireworks fade, our love stays bright
I choose you still, night after night*
