

A SONG WRITTEN FOR JAMES

Bright Star of Love

Just because

1:12

3:32

The moment I knew you were growing in me
I held a whole future in my heart
Before I could see who you would be
I loved you before our lives could start
Then came the day you entered the light
My little world was shining so bright

*James, I'm so proud of all that you are
My lovely, sweet light, my bright star
Each first little word made my heart sing
You are my everything*

Your first little words came soft and clear
They made the quiet feel like song
I kept each sound forever near
And watched your wonder grow so strong
When you don't feel well, I stay near
And hold you close throughout the night
I wait until the clouds can clear
Till you are smiling in the light

*James, I'm so proud of all that you are
My lovely, sweet light, my bright star
Each first little word made my heart sing
You are my everything*

I'll be beside you as you grow
With open arms when days feel long
Whatever comes, I want you to know
My love will help you carry on

*James, I'm so proud of all that you are
My lovely, sweet light, my bright star
Each first little word made my heart sing
You are my everything*

*Keep this warm love within your heart
It has been yours right from the start*
