

A SONG WRITTEN FOR ODETTE

Moonlit Dreams Together

Anniversary

1:19

3:53

I watched you swim beneath the moonlight
The water held a silver gleam
That night shone soft and clear and bright
You stepped into my waking dream
From then, each hour has led me home
With you, no heart need feel alone

*Odette, twenty-one years side by side
You are the strength beneath our wings
I thank you for your heart so wide
You're my soul mate, my everything*

On Cape Town waters, we said yes
That little boat held happiness
Then Stuart filled our arms with song
Then Danaë made our love grow strong
When work takes you away, I know
Our trust will bring you safely home
Your smile finds good in darkest days
And shows us all the kinder ways

*Odette, twenty-one years side by side
You are the strength beneath our wings
I thank you for your heart so wide
You're my soul mate, my everything*

On this anniversary, I see
How every day has carried me
I'll hold your hand through all to come
You're still the place my heart calls home

*Odette, twenty-one years side by side
You are the strength beneath our wings
I thank you for your heart so wide
You're my soul mate, my everything*

*Still moonlight dances on the sea
Still, you are everything to me*
