

A SONG WRITTEN FOR CÉLINE

Guiding Light

Birthday

1:31

4:28

In Athens, we laughed into the night
Each hidden street was glowing warm and gold
In London, we held the world so tight
Our little jokes made every mile unfold
Wherever we went, you made it feel like home
Our laughter told me we could always roam

Céline, you are my blessing, shining bright
My mini me, you light the sky
Trust your heart when crossroads cloud your sight
My warrior, you will rise high

When worry makes the daylight feel too small
And old hurts make you question where to go
Remember, you were born to stand up tall
Your heart still knows the way that it can grow
Team Mami forever, side by side
No storm can take the love we hold so near
At every crossroad, I will be your guide
Till your own strength becomes crystal clear

Céline, you are my blessing, shining bright
My mini me, you light the sky
Trust your heart when crossroads cloud your sight
My warrior, you will rise high

On your birthday, I wish you open skies
More faith to see your strength held deep inside
May every dream ahead of you arise
With me beside you through each changing tide

Céline, you are my blessing, shining bright
My mini me, you light the sky
Trust your heart when crossroads cloud your sight
My warrior, you will rise high

I see your courage lighting up the way
My love will walk beside you every day
