

A SONG WRITTEN FOR MARCELLA

Steady Love Through Time

Just because

1:09

3:22

We raised our two boys day after day
Your care would guide them on their way
Your love for family filled our home
And made each busy moment our own
I saw your steady heart shine through
In all the loving things you'd do

*Marcella, loving you lights up my days
Your love for family shows the way
Your love for Jesus gives us grace
Loving you, my heart finds its place*

A son faced drug addiction's pain
We held to love through tears and rain
Your love for family drew us near
It held us close through days of fear
Through every turn, through joy and strain
I'd walk beside you once again
Your steady love has seen us through
And every day, I choose you too

*Marcella, loving you lights up my days
Your love for family shows the way
Your love for Jesus gives us grace
Loving you, my heart finds its place*

May Jesus keep our hearts in light
May love stay close through every night
Whatever comes, I'll hold you near
And love you more with every year

*Marcella, loving you lights up my days
Your love for family shows the way
Your love for Jesus gives us grace
Loving you, my heart finds its place*

*Your family love still lights my way
I'll keep on loving you each day*
