A SONG WRITTEN FOR TIFFANY

Forever My Rock

Anniversary

1:27 4:16

On May 3rd, 1991, blind date
I still recall the shirt you wore that day
On November 6th, 1993
We said our vows, then walked the road as two
Your caring heart has made me feel at home
You're the best person I've ever known

> *Tiffany, I thank you, my rock*
> *You always keep me on the right track*
> *Now you take care when I might fall*
> *My forever rock through it all*

That Alaskan cruise still shines in my mind
South Dakota opened wide and free
Wyoming and Colorado, side by side
Camping, just the stars and you and me
On February 25th, 2026
The cancer diagnosis came our way
We're still fighting through each turn and twist
We'll get through this bump in the road someday

> *Tiffany, I thank you, my rock*
> *You always keep me on the right track*
> *Now you take care when I might fall*
> *My forever rock through it all*

In 1997, Paige and Levi came
Two little lives we held so close and free
Then Hannah came along in 2002
And made our family all it was to be
You've always been the one who gives so much
For everyone, with all your heart and care
And now I see you fighting day by day
I'll be beside you, Tiffany, right there

On this anniversary, I see
How far your loving heart has carried me
Whatever roads are still ahead, I'll stay
To walk beside you all along the way

> *Tiffany, I thank you, my rock*
> *You always keep me on the right track*
> *Now you take care when I might fall*
> *My forever rock through it all*

The shirt from that first date still lights my way
My hand in yours through come-what-may
