A SONG WRITTEN FOR JON

Heartfelt Journey

Just because

That spring, we first met online one night
A deserted carpark brought us face to face
We walked and talked beneath the
fading light
The whole world seemed to slow its
steady pace
I felt you were so special from the start
And quietly, you settled in my heart

> *Jon, you mean the whole wide world to me*
> *You're the best thing that has set my heart free*
> *I'm thankful our two roads led together*
> *So thankful we found each other*

At campfires, cider caught the firelight
Vodka and laughter carried through
the night
We both know our girls can test our days
Still, side by side, we find our steady ways
At Halloween, I dress the house with flair
Sometimes you indulge my fancy dress
with care
You meet my bright excitement with a grin
And make more room for all the joy within

> *Jon, you mean the whole wide world to me*
> *You're the best thing that has set my heart free*
> *I'm thankful our two roads led together*
> *So thankful we found each other*

No special day has brought these words
to you
No grand excuse, just all the love I knew
Whatever comes, I'll walk right by your side
Thankful to have you here for every stride

> *Jon, you mean the whole wide world to me*
> *You're the best thing that has set my heart free*
> *I'm thankful our two roads led together*
> *So thankful we found each other*

Campfire laughter, warm and bright
I keep that feeling close tonight
