A SONG WRITTEN FOR JOHNNY

Starlight Devotion

Just because

1:56 5:42

I hired a handyman one day
Not knowing love would find its way
You came into my life unplanned
With patient truth and steady hand
You knew that we would be together
You proved your heart could last forever

> *Johnny, you're my sunshine and my moon*
> *You're the starlight that fills every room*
> *My love is deeper than the ocean*
> *Above the stars, my devotion*

You pursued me, never letting go
With patient love, you took things slow
You kept me safe from those who'd use
You showed me what real love can do
Though distance lies between us now
It makes our love grow strong somehow
Someday soon, we'll be together
And keep this love alive forever

> *Johnny, you're my sunshine and my moon*
> *You're the starlight that fills every room*
> *My love is deeper than the ocean*
> *Above the stars, my devotion*

You were honest from the very start
And showed me love with all your heart
You knew I needed you, it's true
As much as you needed me too
Each mile between us makes us strong
It tells our hearts where we belong
Soon we'll be together, you and I
Our love will reach beyond the sky

Just because, I need you to know
How much your love has helped me grow
When distance finally falls away
I'll hold your heart close every day

> *Johnny, you're my sunshine and my moon*
> *You're the starlight that fills every room*
> *My love is deeper than the ocean*
> *Above the stars, my devotion*

Until that day, I'll hold on tight
Your stars will guide me through the night
