A SONG WRITTEN FOR AARON

Endless Journeys Together

Just because

On Kauai, we drove beneath the sun
Your laughter made the long road feel like play
You made each mile a little more like fun
And pulled the far horizon close each day
The open road kept singing in our chest
With you beside me, every turn felt best

> *Aaron, I will always see you clear*
> *I will always love you, year by year*
> *I wish for adventures by your side*
> *We'll take the next ride*

Through Alaska, we followed winding lines
New Mexico spread wide beneath our wheels
Your steady hands could make the wild feel kind
Your patient heart knew what the road reveals
We made it through our turtle family days
We packed up all we owned and moved away
Into unknown, you held my hand so tight
And made the dark ahead feel full of light

> *Aaron, I will always see you clear*
> *I will always love you, year by year*
> *I wish for adventures by your side*
> *We'll take the next ride*

Let every road still find us hand in hand
Let every mile unfold beneath our feet
With you, the unknown feels like open land
And every new beginning feels complete

> *Aaron, I will always see you clear*
> *I will always love you, year by year*
> *I wish for adventures by your side*
> *We'll take the next ride*

The road goes on, I see you shining bright
And hold your hand into the morning light
