A SONG WRITTEN FOR MACIEK

Take Back That Letter

Just because

On spring bicycle trips, you rode near
Your hand found mine, and all was clear
The sunlight rested softly in your eyes
That first touch opened up the skies
Our cherished old picture shines so bright
I keep that little moment close at night

> *Maciek, I'd take back that letter*
> *It ruined our lives, I know for sure*
> *Our hearts deserved so much better*
> *Take back that letter once more*

Years apart made every silence long
But distance never silenced our song
Through sleepless nights, I waited for dawn
And wondered where our easy days had gone
Trapped in the backseat, side by side
I felt the whole world fall aside
I held on tight to all we knew
And every road still led to you

> *Maciek, I'd take back that letter*
> *It ruined our lives, I know for sure*
> *Our hearts deserved so much better*
> *Take back that letter once more*

If there's a way to mend this ache
I'd choose it for our hearts' own sake
Your tender care has carried me through
I'll guard that trust the way you do

> *Maciek, I'd take back that letter*
> *It ruined our lives, I know for sure*
> *Our hearts deserved so much better*
> *Take back that letter once more*

That old picture catches morning light
I keep your first touch close at night
