A SONG WRITTEN FOR CHERYL

My Gift from Above

Anniversary

At that greased pig event, I saw you
I hoped that I would hear from you
Our first date, firemen's annual affair
No word came through; I feared you weren't there
Then you arrived and calmed my fear
Your smile made everything feel clear

> *Cheryl, you're my gift from God above*
> *You're there when it counts with all your love*
> *Only work trainings came between us*
> *You are my life, my universe*

Years ago you beat a hard road, strong and brave
But that's the past, it's not what you gave
Now you're the heart our whole family leans on
The calm and the light we all count on
A nurse at heart, you care for all
You're always there to catch us when we fall

> *Cheryl, you're my gift from God above*
> *You're there when it counts with all your love*
> *Only work trainings came between us*
> *You are my life, my universe*

On this anniversary, I see
The gift that God has given me
Whatever comes, I'll stay right near
And choose you more with every year

> *Cheryl, you're my gift from God above*
> *You're there when it counts with all your love*
> *Only work trainings came between us*
> *You are my life, my universe*

That first bright spark still lights the way
My whole world's here with me today
