A SONG WRITTEN FOR ALLY

Endless Love Journey

Anniversary

1:08 3:20

At Ballandean Tavern, I arrived
My mate said, “See the new barmaid”
One look, my whole heart came alive
My heart knew it was there to stay
From then, the world was ours to share
I knew that you would lead me there

> *Ally, I love you more each day*
> *You work so hard to light our way*
> *Through every storm, you saw us through*
> *Our finest days, all because of you*

At your parents’ barbecue that night
You tried introductions, unaware
I knew them well and laughed outright
Your surprise was hanging in the air
We faced the losses, holding tight
Through days that felt too hard to bear
Then two amazing boys brought light
And filled our hearts with love to spare

> *Ally, I love you more each day*
> *You work so hard to light our way*
> *Through every storm, you saw us through*
> *Our finest days, all because of you*

On this anniversary, I see
You work two jobs, you give so much
I’ll keep you close through years to be
No words can match your steady touch

> *Ally, I love you more each day*
> *You work so hard to light our way*
> *Through every storm, you saw us through*
> *Our finest days, all because of you*

May every road still lead us home
With you, I’ll never walk alone
