A SONG WRITTEN FOR CHRISTIE

Evergreen Love

Just because

In 1985, your green eyes shone clear
On our date, I asked you to marry me
I couldn't go home without you near
That moment said our love was meant to be
Across a room, our secret sign would show
How much our hearts already seemed to know

> *Christie, thank you for all you always do*
> *Through sickness, you cared for me and saw me through*
> *On camping days, your smile would see me through*
> *And our secret sign: "I love you"*

Our wedding day still fills my heart with pride
We watched our children growing side by side
Seven years passed before our honeymoon
Then came the joy that filled the room
When our parents grew old before our eyes
And left this world, we held each other tight
You gave your all beneath the sorrowing skies
Your patient heart stayed with me through the night

> *Christie, thank you for all you always do*
> *Through sickness, you cared for me and saw me through*
> *On camping days, your smile would see me through*
> *And our secret sign: "I love you"*

No special day is needed for this song
With you, my restless heart is standing strong
We'll see new places, walking hand in hand
I'll be your home wherever we may stand

> *Christie, thank you for all you always do*
> *Through sickness, you cared for me and saw me through*
> *On camping days, your smile would see me through*
> *And our secret sign: "I love you"*

Your green eyes still bring me back to then
One secret sign: "I love you" once again
