A SONG WRITTEN FOR FRAN & DEBBIE

Enduring Love

Anniversary

At Curtis Circulation, you met
She was twenty, he was twenty-nine
You were her boss, no one could forget
Across your differences, you aligned
Through every change, you held on tight
And turned the dark toward warmer light

> *Fran & Debbie, fifty years, still strong*
> *Thanks for being there, where we belong*
> *Your patient hearts still guide our way*
> *You gave us love that stays*

When Ritz-Carlton let Fran go
You faced the hard days, blow by blow
Debbie cleaned homes for private school
You gave your children what you could
Dad's camera crossed the floor, then stairs
Your patience met us even there
Pinochle waits this year, we know
Still, your love helps our family grow

> *Fran & Debbie, fifty years, still strong*
> *Thanks for being there, where we belong*
> *Your patient hearts still guide our way*
> *You gave us love that stays*

Your loving lessons light the way
We'll share the care you showed each day
Your strength has carried us this far
We'll hold it close, wherever we are

> *Fran & Debbie, fifty years, still strong*
> *Thanks for being there, where we belong*
> *Your patient hearts still guide our way*
> *You gave us love that stays*

The cards may rest, love stays in play
Fifty years, and here today
