A SONG WRITTEN FOR JIMMY

Timeless Connection

Just because

On our first date, your log yard shone
Your old truck climbed the road you'd dozed
You showed me things I'd never known
Your strength and hard work plainly showed
You drove roads from my childhood days
And showed the house where I once stayed

> *Jimmy, I care more than words can say*
> *Your voice makes me smile in so many ways*
> *I hope we stay close through all our days*
> *You are my special place, always*

Forty-five years went rolling by
Then we began to talk once more
Your voice can lift my spirits high
And make me smile the way before
We shared a passionate time then
Before I moved away one day
We touched and kissed, and once again
The years just melted all away

> *Jimmy, I care more than words can say*
> *Your voice makes me smile in so many ways*
> *I hope we stay close through all our days*
> *You are my special place, always*

I hope the future lets us stay
Close through whatever years appear
I don't know what may come our way
But I feel safe when you are near

> *Jimmy, I care more than words can say*
> *Your voice makes me smile in so many ways*
> *I hope we stay close through all our days*
> *You are my special place, always*

Your voice makes every moment bright
I'm happy when you hold me tight
