A SONG WRITTEN FOR JONATHAN

Echoes of You

Anniversary of his passing

Your guitar filled the room with restless sound
You'd ask me to just listen as you played
On drives, the songs would carry us around
And all the road grew softer on the way
You'd work through every game until you knew
Each hidden turn you had to follow through

> *Jonathan, two years, I miss you so*
> *From waking up till bed, you're on my mind*
> *I look for you where clouds and starlight glow*
> *There, your love is mine*

Your magic tricks brought wonder to young eyes
Your restless questions reached beyond the skies
You gave the younger kids your patient care
When friends had needs, you always would
be there
You graduated with honors, found your way
You found employment through the heavy days
The voices and the medicines took toll
Drugs changed your ways, yet I knew your
gentle soul

> *Jonathan, two years, I miss you so*
> *From waking up till bed, you're on my mind*
> *I look for you where clouds and starlight glow*
> *There, your love is mine*

On this anniversary, I pray
May voices now be gentle day by day
May favorite music keep you rocking free
More than illness, more than drugs to me

> *Jonathan, two years, I miss you so*
> *From waking up till bed, you're on my mind*
> *I look for you where clouds and starlight glow*
> *There, your love is mine*

I thank you for each dime that comes my way
And heart-shaped rocks that brighten up my day
