A SONG WRITTEN FOR SUSAN

Timeless Love's Journey

Just because

1:18 3:50

At the Boundary, I met your gaze
I knew your love would fill my days
You took your first flight across the sea
To Hong Kong, following after me
You missed the ones you called your own
I trained to bring you safely home

> *Susan, I cherish all your love*
> *More than the stars that shine above*
> *Fifty-three years, my heart stays true*
> *I cherish you through and through*

When pancreatitis brought me low
You would not let me let life go
You said our children needed me
Your faith gave strength back endlessly
Each part of me has known the knife
You stood beside me through my life
Our four dear daughters fill our days
Nine grandchildren light our ways

> *Susan, I cherish all your love*
> *More than the stars that shine above*
> *Fifty-three years, my heart stays true*
> *I cherish you through and through*

If I should go before you do
My love will stay forever true
I'd marry you again tomorrow
And love you through each joy and sorrow

> *Susan, I cherish all your love*
> *More than the stars that shine above*
> *Fifty-three years, my heart stays true*
> *I cherish you through and through*

At the Boundary, I found my home
And in your love, I'm not alone
