A SONG WRITTEN FOR GRACE

# Guiding Light

*Just because*

The day we met, my world began to turn
Your loving heart brought warmth into my days
Each moment with you gave me more to learn
Your steady love has guided all my ways
You always put my needs before your own
With you, I never stand alone

> *Grace, you make my whole life bright*
> *Your loving support helps me find my way*
> *For all your love, I thank you every night*
> *You make life worth each day*

Drove to my military hospital doors
To show me I was worth so much more
At times, my hard head stirred debate
Your honest love would help us wait
Through our disagreements, you stayed near
Your loyal heart made things feel clear
You're loving, thoughtful, strong, and true
I see your faithful heart shine through

> *Grace, you make my whole life bright*
> *Your loving support helps me find my way*
> *For all your love, I thank you every night*
> *You make life worth each day*

Just because, I need you to know
How much your love has helped me grow
I'll cherish every day we share
And meet the future with you there

> *Grace, you make my whole life bright*
> *Your loving support helps me find my way*
> *For all your love, I thank you every night*
> *You make life worth each day*

*Your love still lights the road ahead*
*With you, my heart feels safely led*
