A SONG WRITTEN FOR ANTHONY

Stronger Together

Just because

1:19 3:54

On your birthday, you walked me home
That walk gave us a road to roam
At seventeen, our hopes were high
And love grew deeper, you and I
Saturday nights at Rovers, you drove me home
On the beach we danced in the moonlight,
Drifters on the radio
This year, our golden wedding came
And love still burns with that first flame

> *Anthony, I'm better for knowing you*
> *I'll love you always, steady and true*
> *No storm can steal the light from our way*
> *Stronger together, come what may*

We walked through hard times, side by side
And came out stronger, you and I
Your caring heart became my guide
You never let our hope run dry
In '76 we took our vows that day
Our family's bedrock, my point of calm,
you stay
In Venice, on our silver day
We dined, then walked beside the canal
Back to our room, we made our way
We said how lucky, after all

> *Anthony, I'm better for knowing you*
> *I'll love you always, steady and true*
> *No storm can steal the light from our way*
> *Stronger together, come what may*

I'll love you always, come what may
Together, we'll meet what lies ahead
Your hand in mine will light the way
We're stronger with each word we've said

> *Anthony, I'm better for knowing you*
> *I'll love you always, steady and true*
> *No storm can steal the light from our way*
> *Stronger together, come what may*

Your laughter makes the hard days bright
I'll hold you close through every night
