A SONG WRITTEN FOR TERRY

Tender Moments

Just because

1:19 3:53

Outside the library, first time we met
Your tender kiss is one I won't forget
That tender moment glows when days are dim
Its warmth comes back when shadows gather in
Four years of laughter made our small world grow
Through little jokes that only we can know

> *Terry, you make my whole world shine so bright*
> *Your love has held me through each restless night*
> *Your place within my heart will always stay*
> *I love you more than words can say*

When harder times brought tears into our eyes
We stayed together through the fears and cries
We learned what patience, understanding mean
And found more strength than either one had seen
We've stood by each other through the tears and the worries
The hard times made me appreciate you even more
Your gentle heart has made me feel so cared
Your honesty has shown me love is shared
I lean on you, my rock, when life's unclear
And find my way because you're always near
I wouldn't change the journey we've shared
It has brought us closer together

Whatever life may bring along our way
My heart will choose you, come what may
I'll keep this precious story close and true
And find my joy in loving you

> *Terry, you make my whole world shine so bright*
> *Your love has held me through each restless night*
> *Your place within my heart will always stay*
> *I love you more than words can say*

Outside the library, that tender kiss
A little world I never want to miss
