A SONG WRITTEN FOR RICK

Eternal Gratitude

Retirement

On that hot July day in 1964
Your dad and I could not have loved you more
At high school graduation, we stood proud
At college graduation, cheered aloud
The day you married Tammy glowed
Our hearts were full, our joy overflowed

> *Rick, thank you for always being there*
> *With patient hands and constant care*
> *Your love for family lights my way*
> *I love you more than words can say*

With work, you give your very best each day
In body building, strength has led the way
You're always there to lend a helping hand
With faith in Jesus, firm you stand
Classic cars still draw your joyful eye
Your family's love is standing by
As son and husband, father too
A grandfather, kind and true

> *Rick, thank you for always being there*
> *With patient hands and constant care*
> *Your love for family lights my way*
> *I love you more than words can say*

Now retirement opens up the day
May every road bring joy your way
May love and faith be close and bright
Like warm July in golden light

> *Rick, thank you for always being there*
> *With patient hands and constant care*
> *Your love for family lights my way*
> *I love you more than words can say*

Congratulations on your retirement from Chrysler
All those years of hard work, now it's your time
Enjoy every day, you've earned it, you've earned it
Your dad and I still smile with pride
With love forever by your side
