A SONG WRITTEN FOR DESIRAE AND DOMONIQUE

November's Light

Birthday

A mirror lay beside my feet that day
Domonique, I watched your first breath rise
In Bible class, labor came my way
Desirae, your siblings saw you arrive
November sixth belongs to both of you
Nine years apart, your bond still shines through

> *Domonique and Desirae, I'm proud*
> *Your love and compassion lift each soul*
> *When days are hard beyond the cloud*
> *Yahweh's in control*

While I was sick, you finished school
Your creative hands brought beauty to light
Yahweh's grace became your fuel
You trained in cosmetology bright
Medals and trophies came to you
In sports and academics, too
I carry pride in all you do
Your strength keeps shining through

> *Domonique and Desirae, I'm proud*
> *Your love and compassion lift each soul*
> *When days are hard beyond the cloud*
> *Yahweh's in control*

On your birthday, keep praise alive
Thank Yahweh when the morning starts
Love one another, let faith thrive
He holds the things within your hearts

> *Domonique and Desirae, I'm proud*
> *Your love and compassion lift each soul*
> *When days are hard beyond the cloud*
> *Yahweh's in control*

Two lights who share November's day
May Yahweh guide your steps always
