A SONG WRITTEN FOR MERYEM

# Guiding Star

*Tribute*

1:20 3:55

Back in 1978, by my first car
You posed on its bonnet, shining bright
That first sight still rises like a star
We married the following year, so right
At seventeen and eighteen, hearts knew
Forty-six years, I still choose you

> *Meryem, thank you for being who you are*
> *You are the light that guides me from afar*
> *For our children and grandchildren too*
> *Thank you for being you*

At thirty-eight, my heart attack struck hard
You held our household, standing guard
You cared for me and our two children too
Kept two businesses going too
You are our rock, so strong, so true
For family, nothing's too much for you
Still beautiful as when we first met
A privilege I'll not forget

> *Meryem, thank you for being who you are*
> *You are the light that guides me from afar*
> *For our children and grandchildren too*
> *Thank you for being you*

This is my tribute, simple and true
For all the love I find in you
I'll love you for all that you are
With you, my brightest guiding star

> *Meryem, thank you for being who you are*
> *You are the light that guides me from afar*
> *For our children and grandchildren too*
> *Thank you for being you*

*I see that bonnet shining through*
*Like all the love I see in you*

*Scan to listen to your song*
