A SONG WRITTEN FOR FIONA

Timeless Love in London

Birthday

On Palmerston Road, in London town
I helped you settle safely down
Your smile made everything feel new
My heart was finding its way to you
That little start became our way
And I still hold that first bright day

> *Fiona, you make me smile each day*
> *You're my soulmate, lover, best friend*
> *On your birthday, I just want to say*
> *You are magnificent, till the end*

Then came the news: our first-born were twins
Simone and Naomi, side by side
With patient love, you raised them both
Two little hearts, our joy and pride
Kieran and Chantelle brought us cheer
Your caring hands were always near
For forty-five years, you've been my guide
Still hand in hand, with love and pride

> *Fiona, you make me smile each day*
> *You're my soulmate, lover, best friend*
> *On your birthday, I just want to say*
> *You are magnificent, till the end*

Your birthday carries Christmas light
I hope the year ahead feels bright
I'll keep on choosing you each day
With all my heart, in every way

> *Fiona, you make me smile each day*
> *You're my soulmate, lover, best friend*
> *On your birthday, I just want to say*
> *You are magnificent, till the end*

In Christmas light, I see your smile
And hold that moment for a while
