A SONG WRITTEN FOR LORI

Eternal Moments

Just because

1:05 3:12

On Plenty of Fish, our story began
At Dunkin's, our first date felt so grand
You saw me kneel, thought I'd taken a fall
But I was asking forever, that's all
At Evergreen, our vows found their way
Time with the girls still brightens our days

> *Lori, my Peach, I love you so*
> *Your caring heart makes our home glow*
> *You work so hard and light my days*
> *I love you, my Peach, always*

When Covid came, you fought through the night
I stayed beside you, holding you tight
Then you called me shithead, I'd just smile
And all the dark would soften awhile
I said I loved you, plain and true
You said, "Thank you," and I laughed with you
With the girls, the hours drifted slow
Those shared little moments still glow

> *Lori, my Peach, I love you so*
> *Your caring heart makes our home glow*
> *You work so hard and light my days*
> *I love you, my Peach, always*

No special day, I need no reason
To tell you what I clearly see
I'll choose you through each turning season
Keep walking close beside me

> *Lori, my Peach, I love you so*
> *Your caring heart makes our home glow*
> *You work so hard and light my days*
> *I love you, my Peach, always*

From Dunkin's to the life we've grown
My Peach, you'll never walk alone
