A SONG WRITTEN FOR ROB

Eternal Strength

Just because

The day we met, the world felt new to me
We grew up together, side by side, so free
Our honeymoon in Dominican Republic
Young and carefree, we felt so euphoric
Twenty-three years, still you are the one
Your loving heart outshines the sun

> *Rob, thank you for the strength you give*
> *You're always there when I have lost my way*
> *My patient, loving heart, you help me live*
> *You're my rock, always there, you set me free*

Our two neurodivergent sons need care
With EBSA, some days can feel so long
You hold us close with patience everywhere
And somehow make our little world
    feel strong
We do not get much time for us alone
Still, you show love in all the things you do
In every quiet way, your heart is shown
I see the constant love that comes from you

> *Rob, thank you for the strength you give*
> *You're always there when I have lost my way*
> *My patient, loving heart, you help me live*
> *You're my rock, always there, you set me free*

Just because, I need to let you know
Your love has held me all along
I'll spend my days to let my thanks
    still show
With you beside me, I know I belong

> *Rob, thank you for the strength you give*
> *You're always there when I have lost my way*
> *My patient, loving heart, you help me live*
> *You're my rock, always there, you set me free*

Dominican Republic still shines through
In every young carefree dream with you
