A SONG WRITTEN FOR PRUDY

Golden Light

Just because

1:09 3:23

At Bonds, the first day I saw you
Love came alive that very day
On our first date, crumbs flew past you
Your shocked face took my breath away
I told the waiter, “Messy eater”
Your shocked eyes make that memory sweeter

> *Prudy, I never stopped loving you*
> *Through illness and troubles, you stayed true*
> *We’ll turn lost years to golden light*
> *Together, make our lost years right*

We lived apart through many years
Though we were apart, you stayed near
The pain I caused was all my fault
Your generous love would never halt
You stood by me through illness, troubles
Your kindness rose above my struggles
Four days, I broke down all alone
Then poured my heart out, all was known

> *Prudy, I never stopped loving you*
> *Through illness and troubles, you stayed true*
> *We’ll turn lost years to golden light*
> *Together, make our lost years right*

No longer living side by side
We’ll be together, hearts open wide
We still have time to make things right
And fill our days with love and light

> *Prudy, I never stopped loving you*
> *Through illness and troubles, you stayed true*
> *We’ll turn lost years to golden light*
> *Together, make our lost years right*

Your soft hair and your world-best smile
Will keep me smiling all the while
