A SONG WRITTEN FOR KATIE

Endless Love, Bright Horizons

Just because

1:10 3:25

The shop where I worked brought me to you
One look, and all my old skies turned blue
That first night, Pixie slept in our bed
Her little paws curled by your sweet head
That little room became our safe place
I saw forever in your smiling face

> *Katie, I see no imperfections*
> *You're my soulmate, my true connection*
> *You're always looking after me*
> *Thank you for being you*

Brighton held our family by the sea
Your laughter brought the best of me
On date nights at the Indian place
I'd fall again for your smiling face
When mental health brought heavy rain
Your strength came shining through again
The day our daughter came, I cried
I saw your strength and felt such pride

> *Katie, I see no imperfections*
> *You're my soulmate, my true connection*
> *You're always looking after me*
> *Thank you for being you*

One day I'm going to make you my wife
I'll hold your hand for all of my life
Whatever comes, I'll stay by your side
One day you'll be my lovely bride

> *Katie, I see no imperfections*
> *You're my soulmate, my true connection*
> *You're always looking after me*
> *Thank you for being you*

That little room still holds our first night
I carry that warmth into the light
