A SONG WRITTEN FOR PAULINE

Eternal Love's Embrace

Anniversary

1:10 3:27

On our wedding day, you held my hand
With you beside me, I could stand
We made our promise, side by side
To keep our hearts both open wide
Your loving smile was shining bright
And made the whole room feel so light

> *Pauline, I love you more each day*
> *Your loving heart has changed my life*
> *I'll make you happy on our way*
> *I'll always love you all my life*

When cancer came, you faced the rain
Yet gave your love through every pain
Your strength has taught me how to stand
Your warmth still reaches for my hand
You are so kind, so strong, so true
Each day, I fall in love with you
Your generous heart lights up my way
And makes me grateful every day

> *Pauline, I love you more each day*
> *Your loving heart has changed my life*
> *I'll make you happy on our way*
> *I'll always love you all my life*

On this anniversary, I see
How much your love has carried me
I'll make you happy all our days
And love you more in every way

> *Pauline, I love you more each day*
> *Your loving heart has changed my life*
> *I'll make you happy on our way*
> *I'll always love you all my life*

Still hand in hand, beneath soft light
I'll choose you every day and night
