A SONG WRITTEN FOR STEVE

Endless Love Journey

Christmas

The day we met there at the church
Then breakfast started our own story
I felt my worries lose their perch
And all the rest was history
Your dry jokes always make me smile
And make the silence dance awhile

> *Steve, thank you for staying by my side*
> *You love me through each changing year*
> *You are the comfort and my guide*
> *I love you with all my heart, my dear*

During my time spent there in jail
You stood beside me every day
You helped me trust we would prevail
Together, we found our way
The first birthday necklace you bought
shines bright
I've never taken it away
Your romance warms my longest night
And brings a little light each day

> *Steve, thank you for staying by my side*
> *You love me through each changing year*
> *You are the comfort and my guide*
> *I love you with all my heart, my dear*

This Christmas, I will hold you near
For all the love you give each day
I'll be your shelter through the years
And love you more along the way

> *Steve, thank you for staying by my side*
> *You love me through each changing year*
> *You are the comfort and my guide*
> *I love you with all my heart, my dear*

My necklace catches Christmas light
And holds our story shining bright
