A SONG WRITTEN FOR NELSON

Forever By The Lake

Christmas

On August 22nd, 1982, by the lake
You kissed me, and the world turned bright and new
One little kiss made all my heart awake
From then on, every road led me to you
We married in 1987, hand in hand
Then children filled our home, as love had planned

> *Nelson, until my time here is through*
> *I love doing every day with you*
> *You're the best man on earth I've ever known*
> *Doing life, our love will lead us home*

You cook spectacular meals with love to share
Friends and family find a welcome there
With your daughter, Pokémon fills the day
You make time for each treasure on the way
When clumsy accidents had made me fall
In the shower, you held me safe and strong
You washed each little piece and gave your all
Till life was whole again where I belong

> *Nelson, until my time here is through*
> *I love doing every day with you*
> *You're the best man on earth I've ever known*
> *Doing life, our love will lead us home*

This Christmas, may our lights keep burning bright
May every road ahead still feel like home
Whatever comes, I'll hold your hand at night
With you, no heart will ever walk alone

> *Nelson, until my time here is through*
> *I love doing every day with you*
> *You're the best man on earth I've ever known*
> *Doing life, our love will lead us home*

That lake still keeps our first kiss in its blue
And Christmas finds my grateful heart with you
