A SONG WRITTEN FOR MARY

Sunrise to Sunset

Just because

We watch the sunrise, side by side
Then sunset settles soft and slow
The morning paints the light inside
At dusk, the quiet starts to glow
With you, my heart is open wide
My world grows warm when sunsets glow

> *Mary, I love you through all my days*
> *You touch every heart along the way*
> *My heart will choose you, come what may*
> *I will love you forever and a day*

You help the ones who need a hand
Your kindness reaches through the land
You love your kids with all your heart
That love is where your brightness starts
We have had life that made us laugh and we have cried
And grief came like a changing tide
You touch each heart you come to know
And make its hidden goodness show

> *Mary, I love you through all my days*
> *You touch every heart along the way*
> *My heart will choose you, come what may*
> *I will love you forever and a day*

No special day could hold this song
My love for you has grown so strong
At every sunrise, I'll be near
At sunset, I'll still hold you dear

> *Mary, I love you through all my days*
> *You touch every heart along the way*
> *My heart will choose you, come what may*
> *I will love you forever and a day*

Each sunrise brings me back to you
Each sunset says my love is true
