A SONG WRITTEN FOR DAMIEN

Chosen Forever

Birthday

At Brisbane's nightclub, I looked around
The music swept all the noise away
That night, our adventure was found
You smiled, and I wanted to stay
Chemistry and passion lit our way
A fire that burned brighter every day
In a combie van, fruit-picking days
We found our freedom in simple ways

> *Damien, you're the man that I chose*
> *For all you've done, my gratitude grows*
> *For me and the girls, you come through*
> *Chosen man, forever I choose you*

In Port Hedland, we made our home
In a caravan we watched our family grow
Three beautiful girls changed our days
Through ups and downs, we found our ways
Long mining hours pulled you away
That renovation still fills our days
Compassion and understanding found their way
To bring us to where we are today
Yet life's demands can't change my heart
Now we're closer than we were at the start

> *Damien, you're the man that I chose*
> *For all you've done, my gratitude grows*
> *For me and the girls, you come through*
> *Chosen man, forever I choose you*

On your birthday, I wish you more
More adventures waiting at our door
Whatever comes, I'll walk by your side
With all our love to be our guide

> *Damien, you're the man that I chose*
> *For all you've done, my gratitude grows*
> *For me and the girls, you come through*
> *Chosen man, forever I choose you*

From that first night to all we pursue
There's still a wide world for us two
