A SONG WRITTEN FOR JANET

Handprint on My Heart

Birthday

At Toldhom Care Center, we met
Two CNAs, our paths were set
Thirty-five years have passed on by
Your laughter made the long shifts fly
Your singing warmed the air with light
And made the working hours bright

> *Janet, you're always close to me*
> *Through every turn, you help me see*
> *On your birthday, I'll sing my part*
> *A handprint on my heart*

For ten dark years, we lived apart
But you stayed printed on my heart
We learned what we were meant to be
Then found our way, just you and me
Now eighteen years have filled our days
Just two years after vows were made
That stupid cancer crossed our way
We held each other day by day

> *Janet, you're always close to me*
> *Through every turn, you help me see*
> *On your birthday, I'll sing my part*
> *A handprint on my heart*

I'll take your hand through every turn
And let this birthday joy return
With every year, my love will grow
Wherever life decides to go

> *Janet, you're always close to me*
> *Through every turn, you help me see*
> *On your birthday, I'll sing my part*
> *A handprint on my heart*

Your laughter in the fading light
Your handprint keeps my heart alight
