A SONG WRITTEN FOR DAVID

Forever Starts Today

Birthday

1:02 3:03

At Gloucester Quays, we shared our first date
We met on Match, and everything felt new
Your childish jokes kept me there up late
Your loyal heart showed all the care you knew
I found a funny soul that made me glow
A love that felt so easy to know

> *David, I love you more than words can show*
> *Your caring heart is all I need to know*
> *I want to be with you year by year*
> *Forever, my heart stays right here*

Each night, our phone calls carried us along
Your voice would turn my quiet into song
The dog loves you, it sees the good in you
We laugh each day, as if the world were new
When I pooped myself, you stayed so kind
Your gentle care still settles in my mind
You looked after Mum with steady grace
And made the hard days feel a safer place

> *David, I love you more than words can show*
> *Your caring heart is all I need to know*
> *I want to be with you year by year*
> *Forever, my heart stays right here*

On your birthday, this is what I know
I'll love you as the years continue to flow
I want to walk beside you every day
And keep this love with us along the way

> *David, I love you more than words can show*
> *Your caring heart is all I need to know*
> *I want to be with you year by year*
> *Forever, my heart stays right here*

"Cheese, Gromit," you still make me grin
I want forever to begin
