A SONG WRITTEN FOR DORIS, CLAIRE AND DIANE

Light Through the Night

Just because

At Sunday soup, our table was warm
As youngest, I leaned on you all
You held me close through every storm
Like mothers answering each call
Good news, I couldn't wait to share
Bad news, you met me with such care

> *Doris, Claire and Diane, you light the way*
> *I hold all your love through the night*
> *I'll stand by your side, come what may*
> *I will carry you close through the night*

At Doris's new home, balloons flew
We ran through splashes, laughing too
We played baseball in Diane's backyard
Each throw would send our laughter far
Mum and Dad watched us from their place
Joy resting softly on each face
Around Claire's house, snowmobiles sped
Like a racetrack inside my head

> *Doris, Claire and Diane, you light the way*
> *I hold all your love through the night*
> *I'll stand by your side, come what may*
> *I will carry you close through the night*

No special day, I need to say
I grieved right beside you through the pain
Through health and loss, you lit the way
And love will bring us close again

> *Doris, Claire and Diane, you light the way*
> *I hold all your love through the night*
> *I'll stand by your side, come what may*
> *I will carry you close through the night*

Our Mum and Dad live through us still
And leave our hearts forever filled
