A SONG WRITTEN FOR TERRI

# Enduring Love Always

*Just because*

At the airport's end, I asked that day
To share our lives and walk beside
Since college, you had lit my way
You said yes, and changed my world inside
With nothing, we began our home
Made it beautiful, stone by stone

> *Terri, through good times and bad, I'll stay*
> *Until the end, come what may*
> *I'll love you through each winding day*
> *I'll keep on loving you always*

Through cancer treatment, you cared for me
Your calm became my saving grace
You held my heart and set it free
You brought back peace into this place
We traveled with the world in view
Your grandchildren fill you with delight
A great mother, teacher, kind and true
You make hard days feel warm and bright

> *Terri, through good times and bad, I'll stay*
> *Until the end, come what may*
> *I'll love you through each winding day*
> *I'll keep on loving you always*

No road ahead can change my heart
I'll choose you at each brand-new start
As years unfold through dark and light
I'll hold your hand through every night

> *Terri, through good times and bad, I'll stay*
> *Until the end, come what may*
> *I'll love you through each winding day*
> *I'll keep on loving you always*

*Our beautiful home still holds our dreams*
*Your love runs softly through its beams*

*Scan to listen to your song*
