A SONG WRITTEN FOR KRIS

Best Mates Forever

On building sites we start each day
Then golf will take us to the green
With steady hands, we make our way
Our shared escape from what we've seen
Cold beers wait for us at the pub
Those simple nights can lift us up

> *Kris, you're the mate I lean upon*
> *No family here, we lean as one*
> *Through every turn, we're standing strong*
> *BBF's, that's where we both belong*

Your kids and mine grow side by side
Like ours, their world keeps growing wide
With no close family over here
We've learned to keep each other near
At work, you make the long days fly
With one good laugh, the hours go by
And when life's roads are still unknown
We know we never stand alone

> *Kris, you're the mate I lean upon*
> *No family here, we lean as one*
> *Through every turn, we're standing strong*
> *BBF's, that's where we both belong*

May every golf day find us there
Where open skies can clear the air
Whatever comes, I'll be your friend
On me, you know you can depend

> *Kris, you're the mate I lean upon*
> *No family here, we lean as one*
> *Through every turn, we're standing strong*
> *BBF's, that's where we both belong*

From building sites to greens so wide
I'm proud to have you by my side
