A SONG WRITTEN FOR SUE

Golden Light of Love

Tribute

At school, your smile lit up the hall
Your heart of gold would lead us through
We grew together, gave our all
And love kept finding something new
In York, the snow kept us inside
Still side by side, our hearts were wide

> *Sue, I hold your light through all my days*
> *Your heart of gold still shows me ways*
> *I hear your laughter through the haze*
> *More good days than bad days*

Forty years, your love became my home
Your smile made every room feel bright
With you, the smallest days would bloom
Your heart turned shadows into light
Then cancer brought a harder fight
But you were gone too soon from me
You're missed by many, day and night
Yet love remains, a steady sea

> *Sue, I hold your light through all my days*
> *Your heart of gold still shows me ways*
> *I hear your laughter through the haze*
> *More good days than bad days*

I'll keep the warmth you left behind
It lives like sunlight in my mind
I'll find the sun in days to come
And hold your love when days are numb

> *Sue, I hold your light through all my days*
> *Your heart of gold still shows me ways*
> *I hear your laughter through the haze*
> *More good days than bad days*

Your smiling light still draws me near
I hold it softly through the years
