A SONG WRITTEN FOR GENEL

Timeless Dance of Us

Anniversary

At our homecoming dance in high school
You made the crowded room feel bright and small
Your favorite blue shorts looked so cool
Your quirky smile rose above it all
One dance began the road that brought us here
And made my quiet hopes grow clear

> *Genel, you're my rock when shadows fall*
> *I lean on you, you help me stand tall*
> *You make the good times all worthwhile*
> *You're still my purpose in this life*

On our wedding day, I held your hand
Our journey opened wide and clear
We built our family, hand in hand
Four kids brought laughter ringing near
Through the hard times, we held on tight
Your caring heart kept hope in sight
Your strength was there when days were long
Together, we kept moving on

> *Genel, you're my rock when shadows fall*
> *I lean on you, you help me stand tall*
> *You make the good times all worthwhile*
> *You're still my purpose in this life*

On this anniversary, I see
How far this road has carried me
Whatever comes, I'll walk with you
And laugh through every good day too

> *Genel, you're my rock when shadows fall*
> *I lean on you, you help me stand tall*
> *You make the good times all worthwhile*
> *You're still my purpose in this life*

That high school dance still lights our way
Those blue shorts still brighten my day
