A SONG WRITTEN FOR JESSICA

# Guiding Light

*Just because*

At the beach, you dip your toes in the sea
While the tide writes silver along the sand
Those quiet waves still bring you close to me
And every road feels warmer hand in hand
You make a home where all our hearts can rest
With patient love, you always give your best

> *Jessica, you're the glue that holds us tight*
> *You show me how to love you right*
> *You turn our hardest hours warm and bright*
> *My love, my guiding light*

You waited two years for my service to end
Your patient heart kept hope alive each day
Then nights I worked, you held the fort again
Till I got home, you found the strength to stay
It wasn't easy, but we made it through
Together, that's the strength I found in you
Your care keeps every room so clean and bright
You hold our family close with all your light

> *Jessica, you're the glue that holds us tight*
> *You show me how to love you right*
> *You turn our hardest hours warm and bright*
> *My love, my guiding light*

I'll keep on learning from the love you give
And meet the days with all the love you've shown
With you beside me, I know how to live
Because with you, our hearts have found a home

> *Jessica, you're the glue that holds us tight*
> *You show me how to love you right*
> *You turn our hardest hours warm and bright*
> *My love, my guiding light*

*Like toes in water, side by side*
*You're home to me, my constant guide*

*Scan to listen to your song*
